मनस्वीची ब्राँझ पदकाला गवसणी

कोरेगाव भीमा : लोणीकंद (ता. हवेली) येथील होली स्पिरीट कॉन्व्हेन्ट या शाळेतील राष्ट्रीय खेळाडू मनस्वी पांढरे हिने राष्ट्रीय स्तरावरील कुस्ती स्पर्धेत तृतीय क्रमांक पटकावत ब्राँझ पदकाची कमाई केली. राष्ट्रीय पातळीवर शाळेचे तसेच सणसवाडीचे नाव कोरल्याने राष्ट्रीय खेळाडू मनस्वीचे ग्रामस्थांनी अभिनंदन केले आहे.

मध्यप्रदेशातील विदिशा येथे तीन दिवसीय ६७ वी राष्ट्रीय शालेय कुस्ती स्पर्धा पार पडली. या स्पर्धेत भारतातील ६८ खेळाडूंनी सहभाग घेतला होता. त्यामध्ये चुरशीच्या लढतीत मनस्वीने १४ वर्षाखालील मुलींच्या ३९ किलो वजनीगटात तृतीय क्रमांक पटकावत ब्राँझ पदकावर आपले नाव कोरले. या स्पर्धेसाठी राज्यस्तरावरील लातूर येथे महाराष्ट्रातील सहा विभागातील २८ खेळाडूंमध्ये प्रथम क्रमांक मिळवत राष्ट्रीय स्पर्धेत प्रवेश मिळवला होता. यावेळी साक्षी काळे या प्रतिस्पर्धी खेळाडूचा पराभव करत राष्ट्रीय स्पर्धेत प्रवेश मिळवला होता. मनस्वी पांढरे हिने जय हनुमान तालीम संघ सणसवाडी येथे सराव केला. यावेळी तिला शिरूर केसरी पै. चंद्रकांत दरेकर, नरेश्वर कुस्ती केंद्राचे वस्ताद पै. योगेश भांडवलकर यांनी डावपेच व कौशल्यपूर्ण लढतीबाबत तर होली स्पिरीट कॉन्व्हेन्ट शाळेच्या मुख्याध्यापिका सिस्टर पारंबी लीली, मार्गदर्शक शिक्षक प्रताप फडतरे व कल्पना सुतळे यांनी मार्गदर्शन करत राष्ट्रीय स्पर्धेसाठी विशेष तयारी करून घेतली. त्यांचेही अभिनंदन शिरूर केसरी पै. चंद्रकांत दरेकर यांनी केले.

मनस्वीचा जाहीर सत्कार सणसवाडी ग्रामस्थ व जय हनुमान तालीम संघाच्या वतीने घेण्यात येणार असल्याचे पै.बाबासाहेब दरेकर व माजी उपसरपंच विजयराज दरेकर, देवराम दरेकर यांनी सांगितले.

Dear Teachers, Staff, Parents and Students,

I want to take a moment to express my heartfelt appreciation to each and every one of you. Holy Spirit Convent School community thrives because of the dedication, hard work, and support from our incredible teachers, staff, parents, and students.

To our teachers, you inspire our students every day with your passion for education. Your commitment to nurturing young minds is truly commendable.

To our dedicated staff, your behind-the-scenes efforts make our school run smoothly, and your contributions are invaluable.

To our parents, your involvement and support in your child's education are vital. Thank you for being our partners in this journey.

And to our students, you are the heart and soul of our school. Your enthusiasm, curiosity, and perseverance make us proud every day.

Together, we create an environment where knowledge flourishes, friendships are formed, and dreams take flight. Let's continue to work together to make our school a place of growth, inspiration, and opportunity.

Thank you for your unwavering commitment to Holy Spirit Convent School's success. Your collective efforts truly make a difference.

Sr. Prasanna (SHSp)
Manager

Principal's desk

"Educating the mind without educating the heart is no education at all"

The golden years in school are not about lessons and homework but about growing and excelling in every way possible, to fit into the fast changing and fast progressing world.

Dear Students, I wish you all a year of responsibility, respect, reverence, consistency and commitment to achieve what you are supposed to achieve for the better purpose in life. Moreover, speak authentically, be energetic, radiate beauty, restrain from evil and work hard in order that you will unquestionably become an enhanced person.

Dear Teachers, A thousand candles can be lit by a single candle. Likewise, a teacher can ignite the minds of thousands of students to become cheerful achievers and innovative leaders in order to be the lighthouse in this modern trend to guide and lead others rightly. Teachers, I wish you all a year of perpetual commitment, firm confidence and complete tranquility. May your constructive actions and attitude inspire your students.

Sr. Lilly Parambi (SHSp)
Principal

"Your presence is a present to the world. You are unique and one of a Kind" (Joyce Meyer)
We're all different and special in our own way. Each of us is like a unique present to the world. The things that make us different are what make us awesome!

Being unique means we all have something special to share with the world. Everything we do is a gift.

It's essential to know that just by being ourselves, we add something amazing to the world. Every laugh, every good idea, and even every mistake teaches us something and helps us grow. Imagine if everyone was the same – that would be pretty boring, right? But our differences make the world interesting, fun, and exciting!

So, let's appreciate our uniqueness and the uniqueness of others. Let's encourage our friends to be themselves and celebrate what makes them special. The more we accept and celebrate each other, the happier and more wonderful our school and life will be!

We're all special gifts to the world, and by being ourselves, we make the world a better place. Let's keep spreading kindness, joy, and our unique colors in the world!

Stay amazing, stay unique

Unraveling the Mystery of Actuaries: A World of Math and Risk

Dear School Students,
Mathematics is a diverse and captivating field with numerous exciting career paths waiting to be explored. In this article, we'll delve into one of these intriguing options: becoming an actuary. The world of actuaries is a blend of mathematics, business, and statistics, where professionals work with data to help individuals and companies make informed financial decisions, especially when it comes to managing risks.

What is an Actuary?
To put it simply, actuaries are financial strategists who use their mathematical skills to analyse and predict uncertain events, primarily related to insurance and finance. They are the masterminds behind determining how much an insurance policy should cost, assessing the financial health of pension plans, and evaluating investment risks for businesses and individuals.

Why Become an Actuary?
Financial Stability: Actuaries are in high demand. Their expertise is crucial in the insurance and financial industries, providing job security and competitive salaries.

Intellectual Challenge: If you enjoy solving complex problems, actuaries are in the business of doing just that. They tackle real-world scenarios using advanced mathematics.

Variety of Industries: Actuaries work in various fields, from insurance companies and government agencies to consulting firms and healthcare organizations. This career offers the flexibility to choose your preferred sector.

How to Become an Actuary?

Educational Path: Start by obtaining a strong foundation in mathematics, statistics, and economics. Pursue a bachelor's degree in one of these fields. Then, to become a certified actuary, you'll need to pass a series of rigorous exams set by professional actuarial organizations, like the Society of Actuaries (SOA) or the Casualty Actuarial Society (CAS).

Exams: Actuarial exams test your mathematical, statistical, and financial knowledge. They can be challenging, but they demonstrate your expertise to potential employers.

Internships: Gain hands-on experience by interning with insurance companies or consulting firms. This will help you understand the practical applications of your mathematical skills.
Certification: After passing the required exams and gaining work experience, you'll become a certified actuary and be eligible for more advanced and specialized roles.

What Does an Actuary Do?

Actuaries have diverse responsibilities, including:
Risk Assessment: Determining the likelihood of events, such as accidents, illnesses, or natural disasters, and calculating their financial impact.

Pricing Insurance Policies: Deciding how much individuals or companies should pay for insurance coverage, considering factors like age, health, and location.

Investment Analysis: Evaluating the financial risks and rewards of investment opportunities for pension funds or insurance companies.

Statistical Modeling: Creating mathematical models to analyse and predict data, helping businesses make informed decisions.

Regulatory Compliance: Ensuring that organizations adhere to industry regulations and financial reporting requirements.

Conclusion

Becoming an actuary is an intellectually rewarding and financially stable career choice for those who love mathematics and statistics. It offers a wide range of job opportunities, allowing you to work in different industries and solve real-world problems with your mathematical skills.

So, if you're passionate about maths and have an aptitude for statistics, consider exploring the exciting world of actuaries as you plan your future career. Remember, becoming an actuary may require patience and dedication, but the rewards are well worth the effort. It's a path that can lead to a fulfilling and successful career in the world of mathematics and finance.
Happy calculating!

"Your attitude determines your direction."

Learning Through Competitive Examinations!

'Life is a race; if you don't run fast, you will end up like a broken egg.'

Competition is getting tougher day by day, and securing a place in the best academic institutes is not straightforward. It requires a lot of hard work, dedication, and, most importantly, consistent effort. Millions of people appear for many exams, among which only a few are selected for their predetermined goals.

Competitive exams teach us the importance of persistence in our lives. These exams help increase our logical thinking and motivation.

They not only test our knowledge and understanding of the subject but also help students identify their strengths and weaknesses. Through exams, students can develop a deeper understanding of concepts and a better understanding of the subject matter.

When a student prepares for competitive exams, they experience various emotions. Sometimes one feels extremely motivated, while other times, they feel extremely hopeless.
The advantages of taking competitive exams at a younger age are as follows:

- Early exposure to learning and competition builds confidence and sharpens skills, elevating one's level from other students on the same platform.
- Competitive exams enhance the understanding and application of concepts, which is required in a broader context, especially for exams like JEE, NEET, Civil Services, and many others.
- Exams develop IQ, logical and analytical thinking and build a strong foundation for a career.
- They open doors to enter into foreign universities, including the worldwide number one university, MIT. Medallists in International Olympiads have a fair chance of gaining entry into top-class foreign universities compared to others. A few colleges have reserved seats for such scholars.
- Awards, rewards, and scholarships not only provide financial assistance for further studies but also boost morale when moving ahead in the future.

There are no drawbacks to appearing for competitive exams. It is a myth that they can hamper regular studies. Taking an early step will pave the way for your journey to success."

Mrs. Shital Wani

An Artistry of Relations

Miss. Reshma Tribhuvan

This is a beautiful enigma,
chosen by all to unravel,
yet understood by few.

At times, humans fail to comprehend,
paying the price with regret.

Beauty lies in understanding rather than in suppressing,
and certainly not in taking relationships for granted.

Trust and respect are two sides of a coin,
the mantra for everlasting relationships.

It's the essence that counts, not the pretense.
And it's never about resentment, but always about love.

The Dawn of Diesel

Earlier, after the invention, steam engines were used in a large number for the revolutionized industries, and they were kept in the pump house. These engines were not very efficient and required more coal and fuel, also producing a lot of smoke. An inventor named Rudolph Diesel invented an engine that was highly efficient. He named it after himself as diesel engines. It used high compression to generate heat. So, these engines were called compressed ignited engines. These engines replaced the popularity of steam engines. As the engines were large, they required compressed air to start, so they were also called 'Air Blast Injection Engines.' The engine made by Rudolph Diesel was first exhibited at the World Science Fair. It ran on peanut oil. Thus, compression ignition made it compatible to run on any oil-based fuel. Diesel not only aimed to make an efficient engine but also looked forward to biodiesel. He then produced a patent for his invention. Hence, the reign of diesel engines started.

Mrs. Kavita Gaikwad

Article on Health and Fitness

Being healthy and fit, in simple terms, means taking good care of the body. We should remember that a healthy mind resides only in a healthy body. Good health of both the mind and body helps one maintain the required energy level to achieve success in life.

The following chart shows the wellness of health.

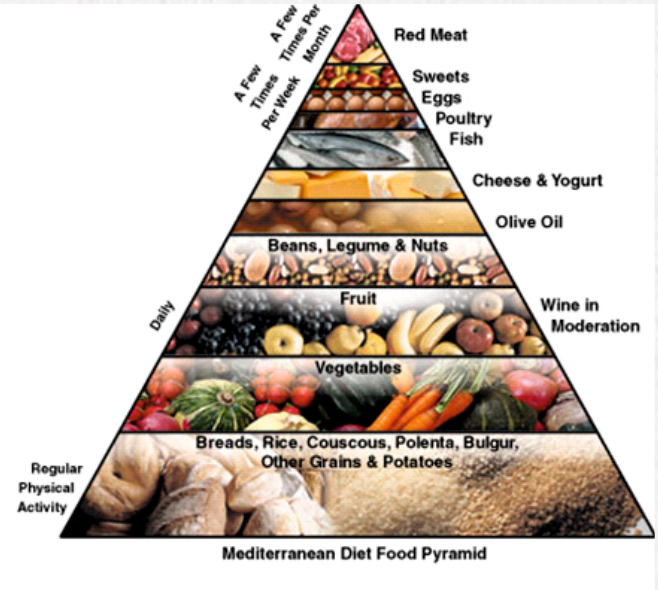

"Your uniqueness is your superpower."

"Maintaining a healthy lifestyle involves protecting your body from harmful substances, engaging in regular exercise, and ensuring proper nutrition and adequate sleep. Being fit enables us to perform our daily activities without feeling lethargic, restless, or tired.

A healthy and fit individual can lead a fulfilling life without encountering major medical or physical issues. Health isn't solely connected to one's physical well-being; it also encompasses mental stability and internal peace.

A balanced and healthy diet includes the consumption of fresh, green vegetables, fruits, along with milk, eggs, essential minerals, proteins, and vitamins necessary for a person's well-being. Incorporating yoga and regular exercise into your daily routine assists in maintaining desired fitness levels, regulating blood sugar, and boosting immunity."

Mediterranean Diet Food Pyramid

Healthy habits enhance your physical appearance, mental stability, and ability to perform activities more effectively, leading to a stress-free lifestyle, maintaining happy moods, and higher energy levels.

Each individual should prioritize their health. No effort should be skipped in maintaining physical and mental fitness on any given day. Being happy is directly related to boosting your mental strength and health, so happiness is both a result and a part of a healthy and fit lifestyle.

Conclusion: Health is the most important aspect that an individual should take care of. Embracing a healthy lifestyle leads to happiness, success, and achievements. In the end, health is wealth.

Mrs. Jalatha Nair

God's Gift! God's Gift!

Holy Spirit School showers on me, Holy Spirit.
Come, all boys and girls, to sing like birds.
Here, knowledge showers, and you receive plenty.
With papers and pencils, pretty books, and your skills.
It's fun to read, it's fun to teach. It's fun to share without any fear.
It's fun to act, it's learning facts. When the bell rings, start a prayer.
Please pour out your blessings, always on us!
May everyone grow as water flows.
Of your truth, love, and wisdom, Help us to create a good school kingdom.

Mrs. Sita Ghumare

"Nurturing Success: Advice for Academic Excellence"

Schools and teachers play an important role in developing one's life. My journey would not have been the same without my teachers. They inspired me, pushed me, and, most importantly, believed in me. They made sure I value hard work, integrity, and commitment.

I would like to tell all my dear friends that the only one responsible for your result is you. You are the hero of this film based on your life.

My best advice to score well in exams would be to be clear with what is taught in the class and revise it at home the same day. Remember, even the greatest of players practice every day to acquire perfection. If they didn't practice, their next match could go worse. Similarly, if you work hard every day now, only then will you be able to do well in your exams later.

Finally, be consistent with what you are doing with your aim clearly set in your head, and one day, you will surely achieve it.

Ishan Sugandhi
Ex-Student

Leadership

Leadership is a quality that gives you an edge over others. Leaders are public figures who guide and inspire people in various aspects. A great leader possesses qualities that make them popular. It is a quality possessed by only a select few, while some inherit it, and others acquire it with little effort over time.

A leader is a charmer who plays the role of an excellent speaker, motivator, and mentor for a group of people or a community. A leader with exclusive leadership abilities could lead millions, influence nations, and change history.

Good leadership springs from a bundle of several qualities, including confidence, honesty, commitment, integrity, patience, creativity, open-mindedness, and the ability to delegate responsibility. While leaders are often looked at as an inspiration for others, being one has its own set of pros and cons.

In conclusion, leadership is a gift that requires you to set a direction, motivate, inspire, develop others, and deliver results that matter.

Aryan Bothe (Head Boy)
Class X B

How Being Responsible Can Change Your Life?

"Responsibility is not a burden but a privilege to contribute to the betterment of society."
"Success is not possible without taking responsibility for our own failures."

Being responsible means that you contributed to an event occurring, either by your actions or your failure to take action. Of course, this could be a good or a bad thing, depending upon the circumstances. If you have contributed to something positive happening, you may not struggle to take responsibility for your role, although some people do. Where you tend to see people struggle to accept responsibility is when things go wrong. Few people like to admit that they contributed to a poor outcome. However, being responsible means that you must step up and take responsibility.

Have you ever caused something to happen and not taken responsibility for it? Many people have done exactly this and have not owned up. A person with a winner's mindset will actually own up and take responsibility. In reality, it is part of human nature to cause things to happen. Sometimes these are not intentional acts and you may feel bad over a certain outcome. Being responsible means that you will own up regardless of the outcome, but this is not always an easy thing to do. Once the outcome has been revealed, it can be difficult to say that you were the cause of it. Those people who refrain from being responsible for their outcomes do so because they really don't understand the truth about being responsible.

The benefits of being responsible:

When you start being responsible for your outcomes, you will start to experience a range of benefits. The following are just some of the key benefits that you will experience when you start being responsible:

- You become more confident.
- You experience better relationships.
- Improved decision making.
- You solve more problems.
- You become a role model.

Nobody will agree with everything that you do. By being responsible, you take responsibility for your beliefs, ideas, goals, mistakes, and achievements. You will be stronger, more confident, and more successful in every area of your life.

Tanisha Wani (Head Girl) Class X B

"The Importance of Grandparents"

After our parents, the only people we can blindly trust are our grandparents. There aren't enough words to express our feelings for them. No one can define their unconditional love for their grandchildren. I cannot emphasize enough the stress relief their presence provides for us. The true value of someone is realized in their absence.

When playing with children, grandparents become kids themselves to accompany them. When we face trouble, they become our guides; when we make mistakes, they become our teachers. And to play with us, they become our playmates. Grandparents are a valuable resource, so we must cherish them. Nowadays, it's observed that many consider their grandparents a burden, forgetting all that they have done for them. Grandparents have more experience than us and can guide us towards the right path.

They provide a space to share things that might not be easily shared with parents. Even if they are in pain and we are not in a good mood, they will never show their pain and will share happiness with everyone. We must treasure the gold we have. Sometimes, sit beside them and ask about their pains; feed them, and sometimes feed with your own hands. If you do this, they will forget the pain they have. Their immense love is unforgettable. Love them, care for them—they are more precious than gold.

Vaibhavi Babar
Class X A

"Be what you are"

The world is full of competition. Wherever we go, whichever field we choose, we can find competition everywhere. Each person has his or her own goals and dreams. Everyone wishes to turn their dreams into 'success'. But not everyone becomes successful in achieving their dreams. Even if a person works with full determination, it is necessary that they work based on their own choice and interests. If you are not interested in something and you keep trying hard just because the crowd follows it or someone advises you to do so, then it is wrong to follow that profession.

You will be able to give your 100% happiness in a profession only if you are interested in it. People give many pieces of advice, but it's up to you to choose your path. 'Be what you are,' be what you wish, because life is yours. Even if you become successful after following the crowd, you will never be satisfied with your life.

One such example is the great scientist who introduced many inventions in physics, Sir Chandrashekhar Venkat Raman. Sir Venkat Raman was a hardworking, dedicated student as well as a scientist who was successful in setting an example that still inspires many. A journey full of hardships always yields sweet fruits. It is the labor and dedication that brought him up to this level, making it a worthy achievement.

So, have a goal or a destination in your life only in which you are interested, and then a path towards your goal will automatically appear before you. Always be true to yourself, and then God will definitely pave many ways for you to reach your goal successfully.

"Proud to Be Indian"

Simply saying the word 'Indian' makes me feel enlightened. India is a land where diversity is born. Success can be found in loss, and the heart is bigger than the house. The importance of my people and culture is even more meaningful than the world's precious diamonds. The diversity of my wonderful nation varies from state to state. A poor man can be found smiling on the roads of India, a result of the love and affection that develops within society.

The people of India live in harmony and peace. India is the only country in the world where people of various languages, religions, and races coexist peacefully. It is the world's largest democracy, a country with a rich culture and heritage, including one of the oldest civilizations in the world, which is over 5,000 years old and has many cultural origins. India is an emerging global scientific and technological superpower with a diverse flora and fauna environment. The languages, culture, lifestyles, cuisines, climatic conditions, scenic beauty, artificial development, architecture, and traditions of my India are its true and pure beauty.

Today, India has the second-largest defense force and voluntary army worldwide. Still, we have a record of not attacking or initiating war. The successful Chandrayaan 3 moon mission has given us a new identity. In the 21st century, India follows its traditions. The phrase 'Atithi Devo Bhava' was proven by the great achievement of successfully presiding over the G20 summit. India's representation of G20's motto, "Vasudhaiva Kutumbakam," was itself an introduction to India in Sanskrit.

India is well-known for its opportunities. Once, a successful Indian businessman, Ratan Tata, said, "Why elsewhere? Why not India?" He meant that we shouldn't leave our motherland in order to be successful. He even said that the roots of our country will always be the first steps for us toward success.

India is much more than we think. It's not just a nation; it is the identity of all citizens, the feeling of all patriots. It is the result of the struggle and sacrifice of all freedom fighters, not just a piece of land but alive - the thoughts of millions that can't be defined.

In today's selfish world, India still respects humanity; the pledge itself is an example: "All Indians are my brothers and sisters." As a result, I am proud of being an Indian. We all must feel proud and fortunate to be born in India.

Payal Nikam
Class IX A

"The Success of CHANDRAYAAN-3"

"I Reached My Destination and You Too!" was the first message sent by Chandrayaan-3 after landing on the moon. It stands as one of the greatest achievements by our scientists, of which every Indian is proud.

Chandrayaan-3 is India's lunar warrior, having successfully soft-landed on the moon's surface on 23rd August 2023. To mark the successful landing of Chandrayaan-3, National Space Day will be celebrated each year on 23rd August. This success demonstrates India's strong determination to uncover the moon's mysteries.

"Failure is a stepping stone to success." This is what Chandrayaan-3 showed us after the Chandrayaan-2 setback. It marked the third successful attempt. Launched on 14th July 2023, this mission aimed to discover the moon's mysteries and analyze lunar soil. Chandrayaan-3's rover, Pragyan, continuously explores the moon's surface and transmits various details, contributing to our understanding of the moon's origin and evolution. Therefore, this successful landing on the southern pole of the moon will pave the way for a promising future.

School Life

Most Irritating Moment : The morning alarm.
Most Difficult Task : Finding socks.
Most Dreadful Journey : Heading to the exam hall.
Most Lovely Time : Meeting friends.
Most Tragic Moments : Surprise test in the first lecture (period).
Most Wonderful News : The teacher is absent.
Unforgettable Moment : Sharing lunch.
Longest Wait : Waiting for the lunch bell.
Huge Secret : Sending chits to communicate.
Funny Moment : Eating food during class.
Best Cricket : Playing with a paper ball and exam board.
Teacher's Favourite Sentence : "This is the worst class I have ever seen before."
Best Moment : Getting excited about the Annual Day just for free periods.
Intelligent Task : Count students in each row to determine which paragraph to read.

Sharvari Tekade
Class IX C

"Kind words cost nothing, but their value is priceless."

Golden Days Of My School Life

My journey of school life began at the gates of "Holy Spirit Convent School." I believe school days are the happiest time in the entire span of human existence. Most of us agree that the days spent in school are certainly the best days of our lives!

What's the best part of school life? Some would vouch for the great education, the learning experience, the knowledge sharing, and other scholarly pursuits. But many would admit that the best part of school life is all the fun one has.

People called it school, but I called it "Life!" School days? How did they get over so soon? It's morning before it's afternoon, December is here before June. My goodness, how time has flown! Why did it get over so soon?

I still remember my first day in school. I was holding my mom's hand tightly with a scared look in my eyes. Everything seemed new to me – new teachers, new classmates, a completely new and different atmosphere. My mind was full of doubts. Are the teachers too strict here? Will they punish me for my mistakes? But I was totally wrong. I still remember the warmth in the teacher's face who welcomed me with a smile.

Escape from Last period cuts... Birthday treats... Last-minute preparation... Overnight study for the next exam... Internal marks problems... Eager wait for 14th Nov...!

Live for today because the past never comes back.

Maths

Maths is a roller coaster,
It's exciting.
Maths is like an alien,
You don't know all about it.
Maths is a bag,
It can hold your skills.
Maths is a smile,
It can be happily evil.
Maths is like a sword,
When you mess up, it hurts.

Maths is like time,
It never stops.
Maths is a painting,
You can't lose interest in it.
Maths is like a mother,
It's always there when you need it.
Maths is like an eternity,
It is never over.
At last, Maths is like a rainbow,
It has a treasure at the end...

Sharvari Tekade
Class IX C

Success

If success were always the result of great effort, that would seem to be ethically satisfying. Sadly, this is not the case. Most of us know people who work extremely hard without achieving success and sometimes even end up facing disaster. Sometimes, it was due to a lack of judgment on their part, a lack of business acumen. But sometimes, their lack of success seems to be a result of circumstances beyond their control.

On the other hand, we also know people who seem to worry little, yet they still achieve success. We might not readily attribute their success to their efforts. Some people call it luck, some call it chance, others call it fate, and yet others attribute it to being in the right or wrong place at the right or wrong time.

Rudrani Khaire
Class VIII B

My Teacher

Teachers are as important in our lives as our parents. They impart wisdom in everything they teach. They offer moral support and encourage us to live equally in this society, treating everyone with fairness. They impart the importance of life and guide us on the right track, ensuring we are capable enough to thrive in this society. They shape a beautiful statue from an unshaped stone, enhancing our knowledge and facilitating the proper flow of knowledge from one generation to the next. Without teachers, society would be in a state of chaos. It is crucial to always respect our teachers. What would happen to the world without a teacher? Anarchy! Without them, there would be limited learning. So, let's keep our teachers close, respect them, cherish them, and learn more from them.

Anvi Phad
Class V A

The Nature

- The first beautiful thing in the world is nature.
- Nature is the art of God!
- Nature is what we see and feel around us.
- Look deeply into nature, and then you will understand everything better.
- Nature will be very happy when we protect it.
- Those who are closer to nature are very happy because nature provides all that they need.
- Nature is a shadow. We don't ask it to give life, but it only gives.
- To nature, trees are more useful for life and human existence.

So, from today onwards, let's plant more trees.

Mahi Devannar
Class V A

The Importance of Family

The importance of family cannot be overstated. Family members play a significant role in our lives and contribute to making us better human beings. Those fortunate enough to have a good family often do not realize its value.

Those who do not have families understand their worth. The source of our strength often comes from our families. They teach us what relationships mean. The love we receive from our families is something we pass on to our relationships with others.

Families teach us better communication. When we spend time with our families, love each other, and communicate openly, we create a better future for ourselves. By staying connected with our families, we learn to connect better with the world.

Families boost our confidence and make us feel loved. They are the pillars of our strength. They never fall but instead keep us strong, helping us become better individuals.

Through our families, we learn the values of love, respect, faith, hope, caring cultures, ethics, traditions, which are essential in our lives.

गुरु का महत्व

वैसे तो हम सभी अपने जन्म से लेकर मृत्यु तक कुछ ना कुछ सिखते रहते हैं। परंतु ईश्वर ने एक ऐसे व्यक्ति का भी निर्माण किया जिसकी हर किसी को जरूरत होती है, उसके बिना जीवन अधूरा होता है वह है हमारे गुरु!

हमारे पहले गुरु हमारे माता–पिता है। वही हमको चलना, बोलना सीखाते हैं अच्छे संस्कार दिलाते हैं उसके बाद आते हैं हमारे शिक्षक शिक्षक कभी भी किसी को भी कोई गलत बातें नहीं सिखाते। भटके हुए व्यक्ति या छात्रों को सही रास्ता दिखानेवाले सिर्फ गुरु ही होते हैं।

इसलिए हम सबका कर्तव्य बनता है कि जो हमें सही मार्ग दिखलाते हैं, गलतियां करने पर डांटते हैं, और कदम कदम पर हमारा साथ देते हैं ऐसे गुरु के प्रति हमारे मन में हमेशा श्रद्धा के फूल खिलते रहने चाहिए। जिस तरह बगीचा न हो तो तरह–तरह के खूबसूरत और सुगंधी फूलों की देखभाल नहीं हो सकती उसी तरह गुरु के बिना हमारा कोई भी महत्व नहीं रह सकता। गुरु एक ऐसा महान व्यक्ति है जो बिना किसी स्वार्थ के अपना ज्ञान अपने विद्यार्थियों मे बांटते है और एक अद्भुत प्रसन्नता पा लेते है। वरना हम समाज में देखते हैं, कि ऐसा कोई भी पेशा नहीं जो बिना स्वार्थ किसी की मदद करे इसलिए मैं सिर्फ इतना ही कहूंगी कि जीवन में चाहे आप कितने भी ऊंचे पद पर पहुंच जाओ लेकिन कई सालों बाद जब आपके गुरु कही भी आपको दिखे तो उनको नमन करना कभी मत क्योंकि एक शिक्षक की ख़ुशी पैसों में कभी भी नापी तोली नहीं जा सकती !

इसलिए यह उक्ति जीवन में हमेशा याद रखनी है

गुरु ब्रह्मा गुरुर विष्णु, गुरु देवो, महेश्वर:
गुरु: साक्षात् परब्रह्म , तस्मै श्री गुरुवे नमः

सौ. छाया औटे

कसं आहे ना ?

एक कागदाचं पान असतं...!!
'श्री ' लिहीले, की पुजलं जातं.....,
प्रेमाचे चार शब्द लिहीले, की जपलं जातं.....
काही चुकीचं आढळलं, की फाडलं जातं...
एक कागदाचं पान असतं.....!!
कधी त्याला विमान म्हणून भिरकावलं जातं...
कधी होडी बनवून पाण्यात सोडलं जातं .....
कधी भिरभिरं बनवून वा–यावर फिरवलं जातं...
आणि कधी तर निरुपयोगी म्हणून चुरगळाही केलं जातं...
एक कागदाचं पान असतं.....!!
जे लेखकाच्या लेखणीला हात देतं...
जे चित्रकाराच्या चित्राला साथ देतं...
जे व्यापा–याच्या हिशोबाला ज्ञात ठेवतं...
आणि हो,वकिलासोबत कोर्टात गेलं, की साक्षही देतं....
एक कागदाचं पान असतं.....!!
पेपरवेट ठेवलं की गप्प बसतं...
काढून घेतलं की, स्वच्छंदी फिरतं आणि कशात अडकलं तर, फडफडायला लागतं ....
एक कागदाचं पान असतं.....!!
ज्यावर बातम्या छापल्या, की वर्तमानपात्र बनतं .....
प्रश्न छापले की, प्रश्नपत्रिका बनते...
विवाहाचं निमंत्रण छापलं की, लग्नपत्रिका बनते....
आदेश–संदेश लिहले, की तेच टपालही बनतं.....
एक कागदाचं पान असतं.....!!
मानसाच्या जिवनातं आणि त्यात खूप साम्य असतं....!!
एक कागदाचं पान असतं.....!!
जन्माला आलं की बर्थ सर्टिफिकेट असतं
निधन झालं तर डेथ सर्टिफिकेट असतं
एक कागदाचं पान असतं.....!!

रानातली दिवाळी

सोनसळी भुईवर
पानाफुलांची रांगोळी,
दान मातीच घेऊन
आली रानात दिवाळी.

आभाळात अंगणात
लक्ष तारकांचे दिवे,
चंद्र आकाशकंदील
बोला आणि काय हवे?

खळ्यादळ्यात गोकुळ
गाई गुरांचे हंबर,
अंधाराला काजव्यांचे
कुणी टाकले झुंबर!

असा गर्जतो वळीव
फुटे ढगांचे फटाके,
वीज जणू फुलबाजा
वारा होई भुई चहे .

रानातील दिवाळीचा
गावरान वानवळा,
येई फराळ चाखण्या
पाखरांचा गोतावळा.

नको अप्रूप माणसा
तुझी हंगामी सुकाळी,
ये शिवारात जरा
रोज रानात दिवाळी .

सौ. विजयालक्ष्मी जाधव

लॉकडाऊन

कोरोना आल्याने झाले होते लॉकडाऊन,
भय, काळजी, चिंता आले होते त्यामागून.

बाहेर जाणे, फिरणे यावर आल्या होत्या मर्यादा,
घरात बसून काय करावे पडला होता प्रश्न सर्वदा.

त्या काळात चित्रकला, कागद काम, गप्पागोष्टी,
मस्ती करण्यात गेले होते हरवून.

नवनवीन गोष्टी करण्यात गेले होते भान हरपून.
ऑनलाइन क्लास, अभ्यास यांनी झाले होते बोर,

नेटवर्क प्रॉब्लेम अन लाईट गेली की,
याने लागत होता जीवाला घोर.

बस झाली होती ही लॉकडाऊन ची सुट्टी,
आता शाळेत जाऊन पुन्हा केली मी मैत्रिणींशी गट्टी.

तुम तो राही हो

तुम तो राही हो सफलता की मंजील के,
तो कैसे निराशा तुम्हारे रास्ते मे आ सकती है ?
भले ही मुसीबतो की जंजीरों ने जकड रखा हो तुम्हे,
लेकिन आशा तुम्हारा दामन कैसे छोड सकती है ?
अगर हिम्मत न हारोगे तो प्रेरणा सबके लिए बनोगे,
अगर तुम ही टूट जाओगे तो दुसरो में अपनी झलक कैसे पाओगे ?
इतना विश्वास खुद पर रखना कि अनुभव तुम्हे राह दिखलायेगा ।
तुम्हे नई – नई बाते सिखलायेगा,

बस इंतजार करना अच्छे वक्त का तुम्हारा वक्त भी आएगा, मंजील तुम्हे भी मिलेगी ।सफलता तुम्हारे कदम चुमेगी सिर्फ मुश्किलो भरे रास्तो पर बिना थके बिना रुके चलते रहो ।

गुरु

गुरु होते है ज्ञान का सागर ,
कर देते है सारी मुश्किले हल ।
गुरु ही है जो सिखाते है छोटी सी छोटी बात,
उत्तम उनकी वाणी,
कर देते है हमारी दुनिया सतरंग से भी प्यारी,
दिखते है उनमें ईश्वर साक्षात हो जाते है प्रभू के दर्शन,
नाप लेते है मन का भाव,
गुरु से शुरू होता है हमारा सवेरा,
जिंदगी का सही रास्ता दिखा जाते है,
हाथ पकड़कर मंजिल तक पहुँचा देते है ।
वही गुरु है ईश्वर हमारे,
जिससे हमारा अस्तित्व दिन से हमारा सब कुछ है,
वह हमारे गुरु है और हम उनके प्यारे शिष्य है ।
गुरु से बढकर ना कोई इस दुनिया मे है,
सर्वोत्तम उनका ज्ञान है वह गुरु हमारी प्रेरणा है ।

संयम

संयम हा एक सदगुण आहे जो प्रत्येक स्त्री आणि पुरुषाने मिळवण्याचा प्रयत्न केला पाहिजे. त्याशिवाय गोष्टी भयंकर चुकीच्या होऊ शकतात. लोकांना खूप भांडणे आणि वादाचा सामना करावा लागतो. संयम वाढल्याने अराजकतेची समस्या सुटते त्यामुळे व्यक्ति आपल्या भविष्याचा विचार करु शकतो. शिवाय बऱ्याच वेळा वाईट अनुभव एक चांगले पात्र तयार करण्यात मदत करतात. म्हणून जर तुम्ही परिणामांची वाट न पाहता आयुष्यभर घाई करत असाल, तर तुम्ही तुमच्या चुकांमधून कसे शिकू शकता ?

अधीरता तुम्हाला आयुष्यात खूप पश्चाताप देईल. म्हणून आपल्या संयमाचा सराव केला पाहिजे. जेणेकरून आपल्यामध्ये आणि आपल्या समाजात शांतता राहील. मेरियम वेबस्टर या डिक्शनरी मध्ये आपल्याला सांगितले आहे की, शांत राहण्यासाठी संयम असणे आवश्यक आहे, आणि दीर्घ वाट पहात असताना किंवा समस्या कठीण लोकांशी सामना करताना नाराज होऊ नका.

संयम हा एक महत्त्वाचा गुण आहे. ज्यामुळे व्यक्ति आपले व्यक्तिगत आणि व्यावसायिक जीवन सुधारु शकतो.

शब्दकोडे

१. डोळे आहेत पण बघू शकत नाही, पाय आहे पण चालू शकत नाही, तोंड आहे पण बोलू शकत नाही, सांगा बरं मी कोण ?
२. असा कोण आहे ? जो लोकांशी भांडत नाही,तरीसुद्धा लोक त्याला जोरजोरात मारतात.
३. मी खात– पीत नाही, आणि पगार पण घेत नाही, तरीसुद्धा तुमच्या घराला पहारा देतो.
४. एका भाजीचे नाव सांगा ? ज्याचा अर्थ म्हणजे आपले पालन पोषण करणे आहे.
५. मी सगळं काही उलटे करू शकतो, पण मी स्वतःला कधीच हलवू शकत नाही.

जीवनाची वाटचाल

भविष्यकाळात जाताना कधीही,
भूतकाळ विसरू नका.
आकाशात जाताना कधीही,
जमिनीला विसरू नका.

तारुण्यात प्रवेश करताना कधीही,
बालपणाला विसरू नका.
आनंदात असताना कधीही,
दुःखाला विसरू नका.

पूर्वा चौधरी
आठवी ब

विजयाच्या शिखरावर कधीही,
पराभवाला विसरू नका.
मित्रांबरोबर दुरावा आला म्हणून,
मैत्रीला विसरू नका.

पण हे सर्व आचरणात आणताना कधीही,
आई-वडिलांना विसरू नका.

अशीही एक मैत्रीण असावी
अशी ही एक मैत्रीण असावी
अचानक जरी भेटलेली असेल
तरीही आयुष्यभराची सोबती असावी.

गप्पांच्या त रमून टाकणारी
अशी ही एक मैत्रीण असावी.
सर्व गोष्टी शेअर करणारी
व सुखदुःखात ही साथ देणारी
अशी ही एक मैत्रीण असावी.

सरळ, साधी, गोड व प्रेमळ
अशी ही एक मैत्रीण असावी.
सीक्रेट सांगण्यापूर्वी
जास्त विचार न करता सांगणारी
अशीही एक मैत्रीण असावी.

अनुश्री हिंगे
आठवी ब

नेहमी चेहऱ्यावर एक समंजस हास्य ठेवणारी,
अशी ही एक मैत्रीण असावी.
चेहऱ्यावर हास्यामागे दडलेले दुःख समजणारी,
अशी ही एक मैत्रीण असावी.

आणि हो,
शेवटच्या श्वासापर्यंत साथ देणारी,
अशी ही एक मैत्रीण असावी.
कोणी नसलं तरी चालेल,
पण, अशीही एक मैत्रीण असावी.

शिक्षा का महत्व

शिक्षा वैसी हो जिससे हो सके चरित्र निर्माण,
जब होगा चरित्र निर्माण तभी बनेगा भारत महान ।
भागदौड भरी इस जिंदगी में स्थान हो व्यायाम का,
पाठ्यक्रम में सभी विषयों के साथ ।
स्थान हो योग-ध्यान-प्राणायाम का
शरीर से चुस्त और मन से स्वस्थ रहना अत्यावश्यक है,
अन्यथा आज की नई पिढी जवानी में ही वृद्धावस्था को प्राप्त करेगी
शारीरिक, मानसिक, आध्यात्मिक विकास का
माध्यम एकमात्र शिक्षा ही हो जिससे रोजी रोटी के साथ-साथ
कर्तव्य का ज्ञान प्राप्त हो ।
भौतिकता को रोककर बौद्धिकता को बढाती है शिक्षा,
अज्ञानता दूर कर ज्ञान प्राप्ती का मार्ग दिखाती है शिक्षा,
राष्ट्रता को सिखाए वैसी हो शिक्षा
सामाजिक विकृतीयों को रोककर उन्नती
के मार्गपर ले जाती है शिक्षा,
सेवा, दया, प्रेम, अपनत्व का भाव निर्माण करे है शिक्षा,
राष्ट्र निर्माण में सहाय्यक होती है शिक्षा,
आजीविका के साथ नैतिकता का ज्ञान कराती है शिक्षा,
मानव जीवन का पूर्ण विकास कराती है शिक्षा,
अज्ञानता के बंधन से मुक्त कराती है शिक्षा,
सामाजिक व्यवहार सिखलाती है शिक्षा,
छात्रों-धर्म-संप्रदाय से उपर उठाती है शिक्षा,
मूल्यपरक ज्ञान प्रदान करके आदर्श नागरिक
निर्माण करती है शिक्षा ।

हाय रे परीक्षा

जिस नाम को सुनने से कॉपता है हर बच्चा
वो है परीक्षा ।
परीक्षा का पेपर हाथ मे आते ही,
इतना डर लगता है ।
की अच्छा नही किया,
तो घर पर पिटना पक्का है ।
तीन घंटे मे करने होते हैं लगभग ४० सवाल,
एक भी छूटा,
तो घर पर होता है बवाल ।
रिजल्ट के एक दिन पहले,
रात को नींद नही आती है
अच्छा नंबर पाने के लिए,
भगवान की याद आती है ।
रखते है विद्यार्थी भगवान का व्रत,
अगर फेल हुए तो लगता है होगा ,
"डंडे से नृत्य" ।
पास होने पर मिलता है,
शानदार इनाम,
और मुख से निकलता है,
थँक्यू भगवान ।
फिर आती है अगली कक्षा,
तब भी मुख से निकलता है ।
''हाय रे परीक्षा'' ।।
